Your checklist

For best quality and smooth production make sure that your design meets our specification and use our checklist.

- ☐ **Graphics**
The design should contain vector graphic or/and embedded bitmap graphics with resolution 200-300 dpi.
- ☐ **Colours**
Use only CMYK colour palette.
We don't print with Pantone® colours.
Hot Stamping or UV partial gloss should be marked as a spot colour with the overprint option enabled.
- ☐ **Lines & Text**
The lines should not be thinner than 0.1 mm.
Make sure all texts are converted to outline before uploading the file.
The line for Hot Stamping should not be thinner than 0.3mm.
The line for UV partial gloss should not be thinner than 0.3mm.
- ☐ **Printable Area**
Design should be extended to the bleeds 2 mm (each side).
